**ARTICLE 11 – Drainage Easement - Woods Subdivision**

To see if the Town will authorize the Board of Selectmen to convey certain drainage easement rights previously granted to the Town as a condition of approval of a subdivision of Map 13, Lot 68, said easement rights being conveyed by a deed dated June 24, 2008, which is recorded in the Hillsborough County Registry of Deeds at Volume 8002, Page 1046, on such terms and conditions as the Board deems fit. The purpose of this conveyance is to facilitate the implementation of a revision to the stormwater drainage system in said subdivision to comply with recent regulatory changes. Once reconveyed to the current developer, the Town will receive a replacement deed conveying drainage easements consistent with the revised plan that has been approved by the planning board.

**Recommended by Selectmen**

**ARTICLE 12 – River Stewardship Plan**

To see if the Town will accept the locally-developed River Stewardship Plan drafted by the Nashua River Wild and Scenic River Study Committee and its recommendation that that portion of the Nissitissit River flowing through Hollis be designated a Wild and Scenic River with the understanding it would not involve Federal acquisition or management of lands.

**ARTICLE 13 – Petition Article to Pave Wood Lane**

Shall the Town vote to direct the Selectmen to pave Wood Lane as soon as possible. The full text of the petition is set forth for informational purposes.

We, the undersigned residents of Wood Lane in Hollis, NH and other Hollis residents respectfully request that the Town of Hollis pave Wood Lane as soon as possible.

We request this for a number of reasons, including but not limited to the following, many of which affect many town residents, in addition to Wood Lane residents. Paving Wood Lane would benefit far more town residents than just those of us living on Wood Lane.

1. The dust and dirt that traveling vehicles raise during dry weather not only is a health issue for anyone breathing in the dust, but enters homes and leaves behind residue and/or prohibits opening windows for fresh air. This is a serious and demonstrable health concern.

2. Rain or melting snow and ice causes long ruts that make steering vehicles difficult and when two vehicles meet, create a potentially dangerous situation.
3. Within a few days of being resurfaced with dirt and stone, the large ruts and potholes reappear, making repeated and frequent resurfacing a waste of time and money that paving would favorably resolve.
4. The large ruts and pot holes cause excessive noise, especially from the large trucks going by to the development off of Federal Hill Road as they speed down the road and bounce up and down. The increased traffic due to development in the area exacerbates the dust, mud, rut and noise issues, and will only be replaced by increased vehicle traffic as new residents move in.
5. This travel noise, dirt, and traffic is particularly bad on dump days as Wood Lane is a short cut to the dump for many town residents, and will be for more as the developments are occupied.
6. The ruts and furrows cause excessive tire wear and frequent front end alignments to vehicles traveling on this road.
7. Using the dirt/stone mixture to resurface the road causes a great deal of stone to be left in driveways, shrubbery and bark mulch best near the road that is very difficult to remove. It is too large to use a leaf blower on and too small to rake effectively

Paving Wood Lane will relieve the above problems, inconveniences and health issues as well as save the Town money and maintenance issues in the future.
